SUPERGAS®

The safety of our entire supply chain is our number one priority. We believe that no work, service or activity is so important that safety can be compromised. We care for our Customer's business and employees, that is why we ensure utmost safety in and around their LPG installations.

Hotels and commercial establishments use LPG for cooking. Fire accidents take place for various reasons and few are fatal. Most of it can be avoided if there is an early warning signal. Precisely that's the reason, Fire Safety Department in many states insist to install LPG leak detection system in Hotels. Keeping the need of Customer's safety in mind we have introduced SUPERGAS-LPG Leak Detector- a reliable device for your safety.

Areas of Use

Hotels

Food Outlets

Canteens

Commercial Cooking Areas

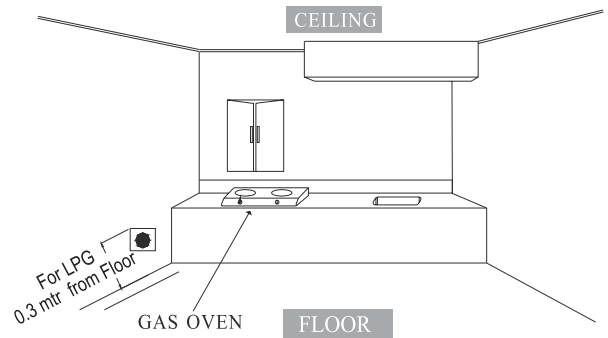

Small Industries

Residential Houses

For Industrial LPG Installations we offer separate Customized CGMS⁺ (Continuous Gas Monitoring System Plus)

Benefits

- Compact Size - Like a Door Bell
