CGMS - Plus

Continuous Gas Monitoring System Plus

An Innovative, Reliable and Real time Safety Device
for your LPG and NG Installation

**SAFE
& RELIABLE**

**SMS
ALERTS**

**CUSTOMIZED
SOLUTIONS**

**HIGHER
PRODUCT LIFE**

**PESO & BIS
APPROVED**

Safety: A Top Priority

Safety and Health are top priorities in our business. We believe that no work, service or activity is so important that safety can be compromised. We care for our Customer's business and employees, that is why we ensure utmost safety in and around their LPG installations.

It is of life-saving importance that an LPG Leak is detected immediately and the right people are alerted to avoid serious accidents. The CGMS+ (Continuous Gas Monitoring System Plus) by SUPERGAS not only gives an alarm signal on site but also sends an alarm signal to 10 pre-programmed mobile numbers through SMS!

Advanced Technical Features

Sensor: Semiconductor type

Sensor Assembly: Flameproof

Junction Box: PESO & BIS approved

Digital Controller Unit: Micro -processor based

Working Details

CGMS+ (Continuous Gas Monitoring System Plus) is a gas detection system having multiple gas sensors, digital controller unit which monitors the concentration of LPG in the atmosphere and gives warning way before the explosive limit. This LPG concentration limit can be set by the users. In case of leakage, LPG settles down on the ground and the flameproof sensor sense the LPG and transmit inputs to the digital controller unit; thus initiating the alarm. Simultaneously using the in-built modem, warning SMS is sent up to 10 mobile numbers. In case leakage is not arrested, message alert is sent at regular intervals of 3 minutes. LPG concentration is also displayed on the digital controller unit placed at the control room or office. Thus it's a real time safety device keeping you informed on LPG/NG leakage wherever you are.

SUPERGAS CGMS+ Advantages

Enhanced Safety

BIS & PESO approved

Customized Solutions
(2 channels to 16 channels)

Higher Product life
(semi-conductor sensors)

Warning alarm and SMS
upto 10 mobile numbers

About SUPERGAS

SHV Energy Private Limited is a 100% subsidiary of Dutch Multinational SHV Energy N.V., Global leader in LPG Industry. It operates in more than 20+ countries and supply LPG to 3 Crore Customers across 4 continents. Established in India in 1996, SHV India has built a reputation as the leading LPG player with national presence having access to 6 import terminals and more than 20+ filling plants. Popularly known by its brand name SUPERGAS, we have retained the coveted CRISIL Rating No.1 since inception for our technical excellence, prompt customer service and strong commitment to safety.
