Hello & A Message from Our CEO's Desk

As we near 2023's end, it's worth remembering our journey through its challenges, changes, and growth. Our remarkable achievements transcended financials, strengthened our growth mindset, deepened our commitment to sustainable operations, and positively impacted society. Echoing our core values of adaptability and innovation, we've incorporated many digital transformations in our operations and many more are in the pipeline.

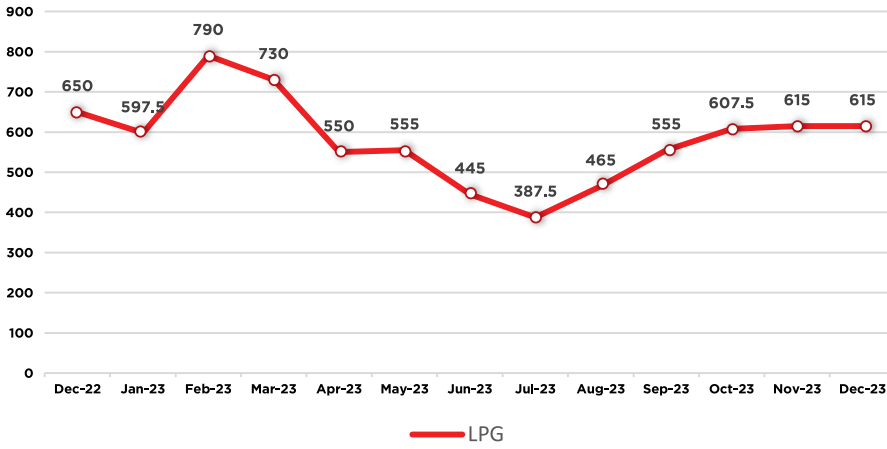

Entering the new year, we celebrate not only a vibrant new workspace, but our uninterrupted progress. We are moving to a new, modern corporate office located in Hyderabad Knowledge City locality, leaving behind many treasured memories from our old office where we've spent more than 25 years. Congratulations to all for collectively driving our company towards great competitiveness and growth.

In 2024, we won't just bloom; we'll blaze with the colours of our resilience. So, let's step into the new year with hearts full of gratitude for the lessons learned and eyes sparkling with the excitement of what's to come.

The Energy Feed

Saudi Aramco CP - 2023

CP Movement LPG
Dec'22 to Dec'23

Over the past year, LPG prices have experienced significant volatility. The contract price (CP) has fluctuated between a low of \$387 in July 23 and a high of \$790 in February 23. This volatility can be attributed to several factors, such as geopolitical situations & conflicts, and oil output cuts by OPEC+ countries.

In addition, the reduction in cargo movements through the Panama Canal and recent disruptions in the Red Sea have resulted in increased ocean freight costs, reaching historically high levels. Shipping companies are currently adjusting vessel routes in response to this situation. It is anticipated that 2024 will also see continued volatility and elevated ocean freight rates.

Green Dreams, Brighter Tomorrows

At SUPERGAS, sustainability is at the heart of what we do. We're dedicated to providing energy solutions that are kind to our planet. Every action we take, every choice we make, is guided by our promise to support a sustainable future. We're not just thinking about today; we're shaping a world where nature and progress coexist.

We've taken significant strides towards reducing our carbon footprint and promoting eco-friendly practices, aligning our operations with the global shift towards a greener future. We, at SUPERGAS have taken up an ambitious goal of reducing our carbon footprints.

Here are a few noteworthy sustainable initiatives:

1. We've signed a 25-year Power Purchase Agreement with our sister concern, SunSource Energy, to provide 4 MW solar power to our newly expanded Tuticorin Refrigerated Terminal. This means solar power will make 60% plus of our total energy, up from 43%, and it also helps us get closer to our goals of reducing emissions.
2. Tuticorin Terminal underwent an Engineering Change to reduce electricity usage. This cut in annual consumption decreased CO₂ emissions, reinforcing our commitment to preserving resources and minimising environmental impact.
3. We've introduced three CNG vehicles of 6MT and 3MT capacities, to transport cylinders at our Rohtak and Vadakkal Filling Plants.

Horizons Expanded: AR enhanced Industrial LPG Installation

Industrial LPG installation is about to get a whole lot easier with the introduction of AR technology.

This ground-breaking innovation will streamline site suitability assessments, saving time and paving the way for a smoother, more efficient industrial landscape.

Stay tuned as we are gearing up!

Progress Through Partnership

At SUPERGAS, our strength lies in the rich blend of diverse voices that shape our narrative.

Every individual (including our stakeholders), every perspective, adds a unique hue to our vibrant mosaic. It's a world where every voice finds its melody, and every idea its stage.

Our Invaluable Industrial Customer

BHARAT DAHYABHAI PRAJAPATI,
HEAD PAINT TECHNOLOGY,
ALF ENGINEERING PVT LTD

“As India's leading manufacturer of indigenous hydroformed auto components, ALF Engineering Pvt. Ltd. trusts SUPERGAS for the widespread LPG needs across the plants in India. We chose SUPERGAS for their reliable services, uninterrupted supply, and technical assistance.

The sales team has gone above and beyond to deliver urgent requests promptly, preventing significant production losses. We are proud to be associated with SUPERGAS as our trusted vendor.

I believe SUPERGAS is more vigilant on safety as a prime responsibility.”

Our Invaluable Cylinder Franchisee

LAVANYA KALE,
SRI SANTHOSHI MAA AGENCIES,
SUPERGAS FRANCHISEE HYDERABAD

“We partnered with SUPERGAS in 2013 because of their reliable business services and safety focus. Due to unforeseen circumstances during the pandemic, after losing my husband I had to take control of the operations, which was challenging initially. However, the unwavering support and comprehensive services from SUPERGAS helped me navigate the complexities of the LPG industry.

Safety, being the primary focus of SUPERGAS, has helped us cultivate best practices amongst our customer too. It's been 10 years plus and I am genuinely grateful for their committed partnership and dedication to helping me succeed.”

Events at SUPERGAS

Hyderabad Retail Expo

From June 21-23, we took part in the Hotel Restaurant, Catering Business & Bakery Business Trade Show at Hyderabad's Hitex Exhibition Center.

With active partnerships and support from leading industry bodies, this trade event provided an opportunity to feature our products and services to 50k+ visitors, expanding our network of prospects.

Health & Safety

We successfully wrapped up SHV Energy's Annual Health and Safety Week at SUPERGAS INDIA from Sept 11-15, 2023. The week began with the worldwide launch of the "I CARE" initiative, through which we aim to encourage our team to instigate safety practices.

Surface Coating Expo

We were delighted to take part in the Surface Coating Expo, hosted at the Chennai Trade Centre from June 29 to July 1. Hosted by CII, this expo served as a hub platform for us to broaden our network, increase our brand visibility, and market our products.

CSR - SUPERGAS Foundation

On Oct 19, 2023, we proudly initiated 'SUPERGAS Enclave's construction at Anandaghar NGO in Kolkata - a special hostel for girls living with HIV, spurred by SGF's support.
